NUTRITIONAL INFORMED CONSENT

According to the Federal Food, Drug and Cosmetic Act, as amended, Section 201 (g) (1), the term "DRUG' is defined to mean:

"Articles intended for use in the Diagnosis, Cure, Mitigation, Treatment or Prevention of disease.

A vitamin is not a drug, NEITHER is a Mineral, Trace Element, Amino Acid, Herb, or Homeopathic Remedy.

Although, a Vitamin, a Mineral, Trace Element, Amino Acid, Herb, or Homeopathic Remedy may have an effect on any disease process or symptoms, this does not mean that it can be misrepresented, or be classified as a drug by anyone.

Therefore, please be advised that any suggested nutritional advice or dietary advice is not intended as any primary treatment and or therapy for any disease or particular bodily symptom.

Nutritional counseling, vitamin recommendations, nutritional advice, and the adjunctive schedule of nutrition is provided solely to upgrade the quality of foods in the patient's diet in order to supply good nutrition supporting the physiological and bio-mechanical processes of the human body.

Nutritional advice and nutritional intake may also enhance the stabilization of the eight (8) chemical components of the VSC (Vertebral Subluxation Complex).

I have read and understand the above:

I hereby, attest to the following:

1. I fully understand that the Chiropractor I am seeing in this office is not a Medical Doctor, and I am not consulting for medical, diagnostic, or treatment procedures. The chiropractor treats for whole health and not any specific disease when you present for an Applied Kinesiology (AK)/Nutrition appointment.

2. The AK services performed by the Chiropractor are at all times restricted to helping me gain a better understanding of my degree of "health" (not disease), so I will have a greater self-awareness and be able to use a self-care program for daily living.

3. I understand that any recommendations, discussion, sale of food, nutrition, nutritional supplements, vitamins or minerals, food grade herbs, or other nutrients as foods for special dietary use only pertains to the whole body concept of nutrition, and does not relate in the context of any specific ailment or condition.

4. The appointments do not involve the diagnosing, prognosticating, treating or prescribing of medicines or the treatment of disease, or any act which will constitute the practice of medicine in this state, for which a license is required.
